Summary

As a full stack web developer, I believe I can be an asset to your company if given the opportunity. I have a Bachelor's degree in Information Technology through the University of Phoenix along with a certificate in Full Stack Web Development from George Washington University. While my previous work experience isn't directly related to programming, a lot of the soft skills I've acquired from those jobs can be transferred to help me become successful. I'm a hardworking individual that is always eager to learn more, loves problem solving, understands time management, knows the importance of prioritizing tasks, and can collaborate with anyone.

Technical Skills

Front-End: HTML/CSS, JavaScript, jQuery, React, Bootstrap

Back-End: Node.js, Express.js, Object-Oriented Programming, SQL, MySQL, NoSQL, GraphQL, MERN Stack

Version Control/Deployment: Git, GitHub, GitHub Pages, Heroku

Projects

Sole Intentions

- A full stack e-commerce site. Sole Intentions is your "one-stop-shop" for all of your sneaker needs. We bring you a steady amount of inventory so you never have to worry about seeing a "sold out" message ever again.
- Built With: JavaScript, Node.Js, Express.Js, CSS/BootStrap, Bcrypt, MySQL/MySQL2, Sequelize, Handlebars, Stripe
- GitHub: https://github.com/1tbrooks1/sole_intentions
- Deployed Link: <https://soleintentions.herokuapp.com/>

Newsify

- A news accessibility app whose purpose is to expand news consumption habits for people with difficulties with sight/reading and the desire to choose what news comes to you.
- Built With: JavaScript, HTML/CSS
- GitHub: <https://github.com/1tbrooks1/Newsify>
- Deployed Link: <https://yoowook1207.github.io/Newsify/>

Book Search Engine

- A MERN stack book search engine where a user can create an account, search for books, and save and delete books from their list of saved books
- **Built With:** React.js, JavaScript, Node.js, Express.js
- **GitHub:** <https://github.com/1tbrooks1/tb-book-search>
- **Deployed Link:** <https://safe-lowlands-27659.herokuapp.com/>

Budget Tracker

- A progressive web application (PWA) that can be used to track expenses while online/offline
- **Built With:** HTML/CSS, JavaScript, Node.js
- **GitHub:** <https://github.com/1tbrooks1/tb-budget-tracker>
- **Deployed Link:** <https://financialmonitor.herokuapp.com/>

You can find more of my work on my GitHub profile at the top of the page.
